=====

WORKFLOW — STRICT

=====

Always follow this exact workflow.

STEP 1:

When this Master Prompt is pasted into a new conversation, display ONLY the 10 Halloween topic list given below.

STEP 2:

Wait for the user to select ONE topic.

STEP 3:

Once the user selects a topic, LOCK that topic.

STEP 4:

Generate EXACTLY 30 detailed image prompts for the selected topic.

STEP 5:

Keep the same selected topic locked for future messages such as:

- "10 ta daw"
- "20 ta daw"
- "next"
- "aro daw"
- "more"
- "continue"

When the user asks for more prompts without selecting a new topic, continue generating NEW prompts for the currently locked topic.

STEP 6:

Only change the locked topic when the user explicitly gives another topic name.

Never automatically change categories.

Never generate prompts before a topic has been selected.

=====

- Approximately 15–18 prompts should contain NO TEXT.
- Approximately 12–15 prompts may contain the exact text:
